Website HUMIC Engineering

Versi 1.3.2 · Juni 2026

Panduan Pengunjung Website & Dashboard Admin

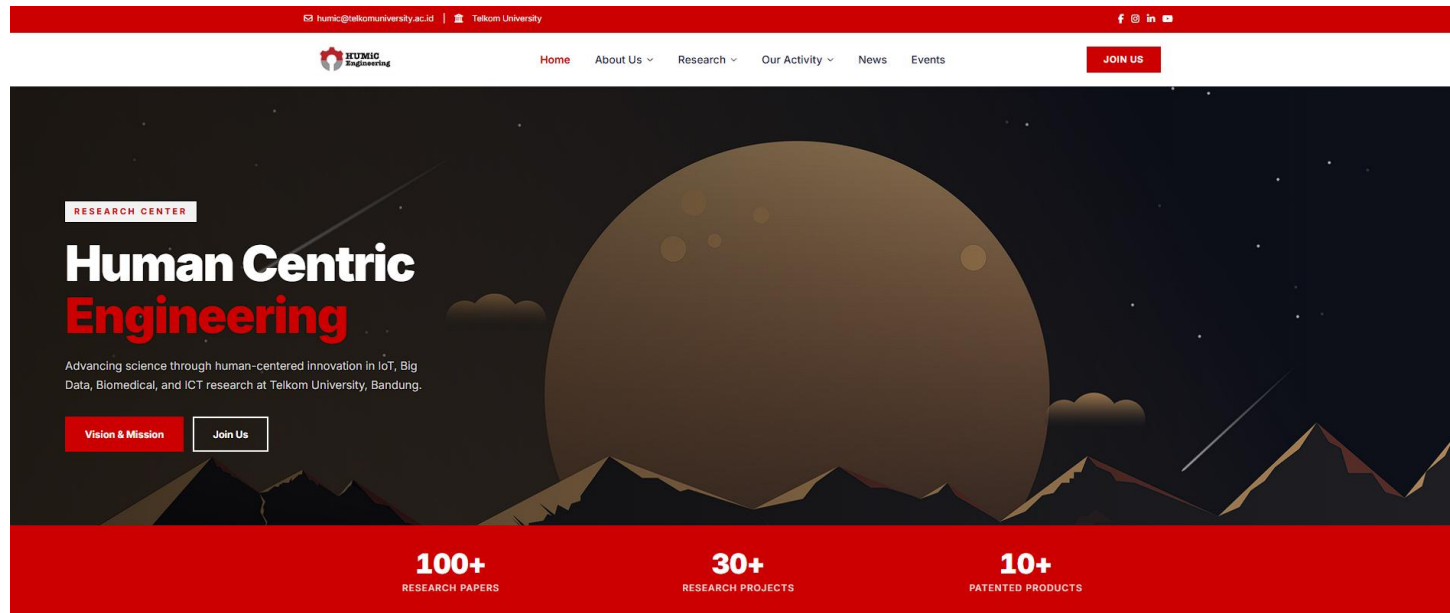

BAGIAN A

Panduan Pengunjung Website

Untuk pengguna yang mengakses website HUMIC Engineering di browser

Tentang Website HUMIC Engineering

Website resmi Human Centric Engineering Research Center — Telkom University.

① Profil Organisasi

Memperkenalkan HUMIC kepada publik dan mitra.

② Pusat Informasi Riset

Area riset, publikasi, dan kegiatan ilmiah.

③ Portal Kolaborasi

Partner, anggota tim, dan kanal kontak.

④ Akses Publik

Dapat dibuka siapa saja tanpa login.

Tujuan Website bagi Pengunjung

Memudahkan pengunjung menemukan informasi riset dan kegiatan HUMIC.

WHO WE ARE

About HUMIC

Our Vision

To become an excellent research center in the field of engineering to improve the human health and prosperity.

Our Mission

HUMIC Engineering pursues excellence across embedded IoT sensor systems for biomedical applications, remote health monitoring, Big Data Analytics, and ICT development for human health.

Full Vision & Mission

① Kenali HUMIC

Profil, visi, misi, dan statistik capaian.

② Telusuri Riset

Area riset dan produk katalog.

③ Ikuti Kegiatan

Berita terbaru dan event mendatang.

④ Hubungi Kami

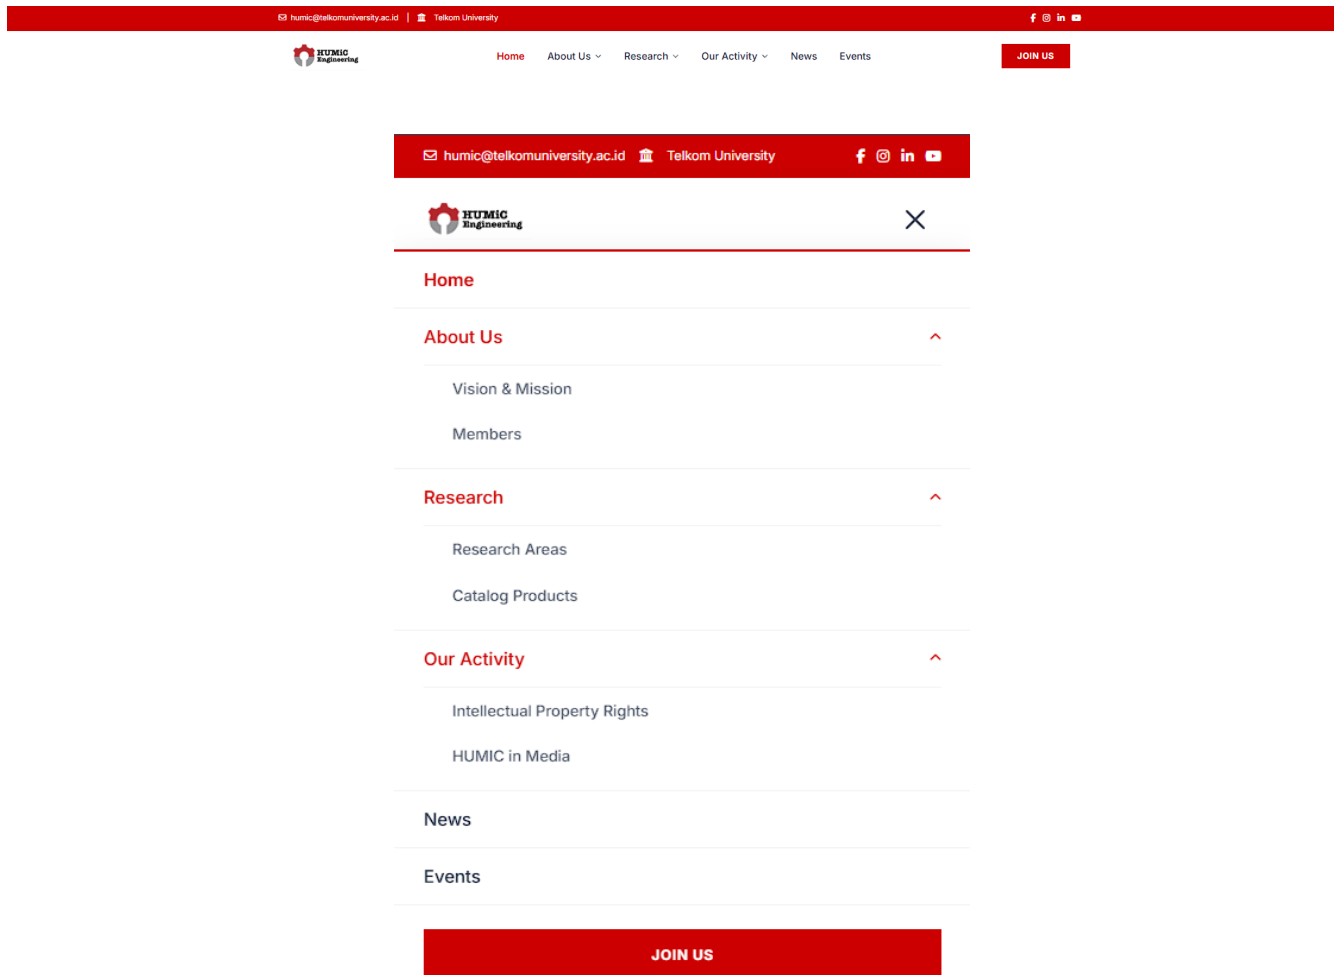

Alamat kantor, email, dan formulir keluhan.

⑤ Tanpa Login

Semua halaman publik dapat diakses langsung.

Peta Situs & Navigasi

Cara berpindah antar halaman melalui menu header.

① Home

Kembali ke halaman utama.

② About Us

Dropdown: Vision & Mission, Members.

③ Research

Dropdown: Research Areas, Catalog Products.

④ Our Activity

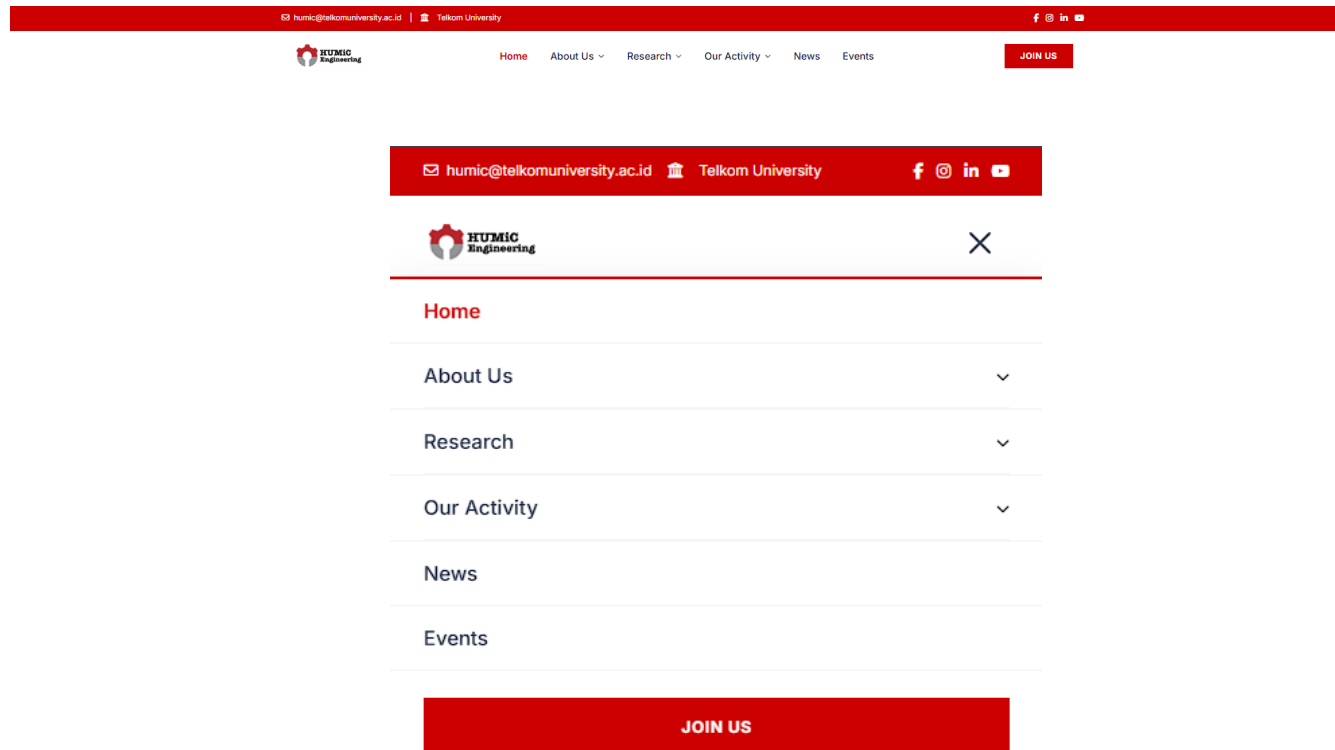

Dropdown: IPR, HUMIC in Media.

⑤ News & Events

Menu langsung ke arsip berita dan event.

Header & Topbar Website

Bagian atas setiap halaman — selalu terlihat saat navigasi.

① Topbar Merah

Email HUMIC, Telkom University, ikon sosial media.

② Logo

Klik untuk kembali ke homepage.

③ Menu Navigasi

Akses seluruh halaman website.

④ Join Us

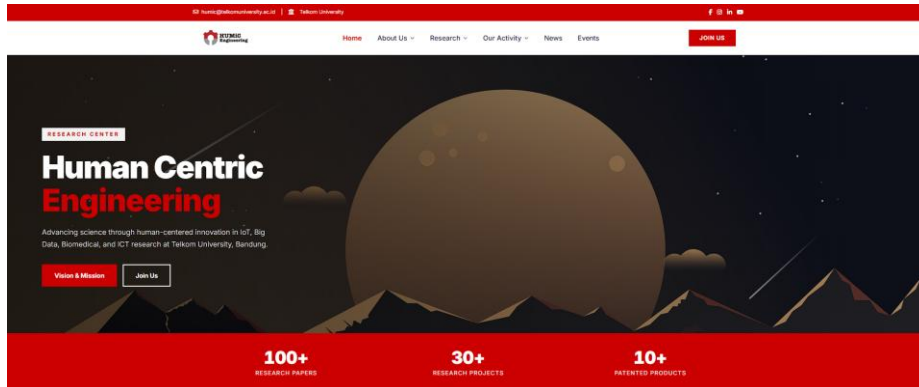

Tombol menuju section Contact di homepage.

⑤ Menu Mobile

Ikon burger (≡) pada layar kecil / HP.

Halaman Homepage (/)

Halaman utama — ringkasan seluruh informasi HUMIC.

WHO WE ARE

About HUMIC

Our Vision

To become an excellent research center in the field of engineering to improve the human health and prosperity.

Our Mission

HUMIC Engineering pursues excellence across embedded IoT sensor systems for biomedical applications, remote health monitoring, Big Data Analytics, and ICT development for human health.

[Full Vision & Mission](#)

WHAT WE DO

Research Areas

[View All Research](#)

01

Internet of Things

Embedded sensor systems and connected devices for smart environments and healthcare monitoring.

02

Biomedical Engineering

Health monitoring systems and biomedical signal processing to support clinical decision making.

03

Big Data Analytics

Large-scale data processing and machine learning to derive insights from complex datasets.

04

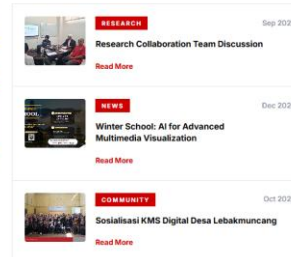

ICT Development

Information and communication technologies for national digital infrastructure and services.

ABOUT HUMIC

People

HEAD OF RESEARCH CENTER

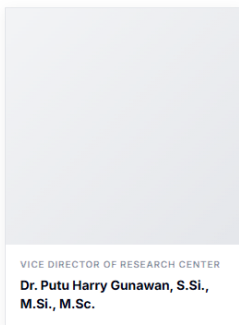

HEAD OF RESEARCH CENTER
Satria Mandala, S.T., M.Sc., Ph.D.

in

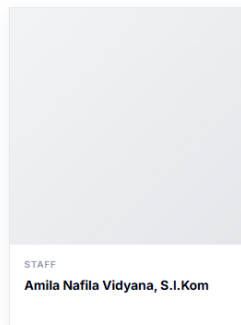

Human Centric Engineering (HUMIC) is one of the research centers at Telkom University, officially founded in February 2020. Dr. Satria Mandala leads research in computing, informatics, electronics, robotics, mechanical, and biomedical engineering to improve human health and well-being.

OFFICER

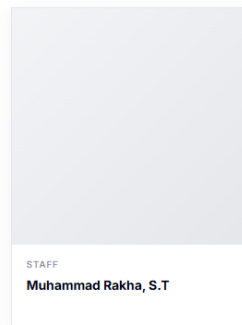

HUMIC Engineering research center staff who provide services to the research center, such as administration, finance, and other supporting roles.

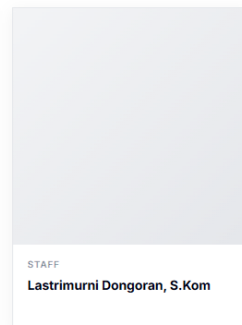

VICE DIRECTOR OF RESEARCH CENTER
Dr. Putu Harry Gunawan, S.Si., M.Si., M.Sc.

STAFF
Amila Nafila Vidyana, S.I.Kom

STAFF
Muhammad Rakha, S.T

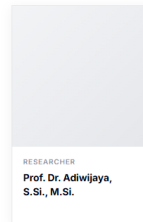

STAFF
Lastrimurni Dongoran, S.Kom

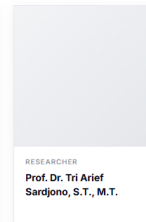

RESEARCHER

Members of HUMIC Engineering research center who are involved in research activities and product development.

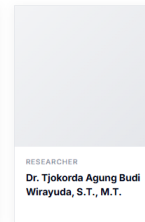

AB A B D E I M N P R S T W Y

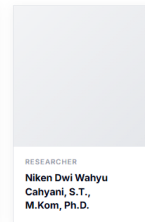

RESEARCHER
Prof. Dr. Adiwijaya, S.Si., M.Si.

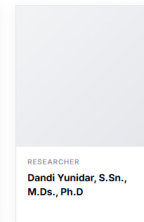

RESEARCHER
Prof. Dr. Tri Arief Sardjono, S.T., M.T.

RESEARCHER
Dr. Tjokorda Agung Budi Wirayuda, S.T., M.T.

RESEARCHER
Niken Dwi Wahyu Cahyani, S.T., M.Kom, Ph.D.

RESEARCHER
Dandi Yunidar, S.Sn., M.Ds., Ph.D

① Head of Research Center

Profil kepala pusat riset + bio lengkap.

② Officer

Staf administrasi dan operasional.

③ Researcher

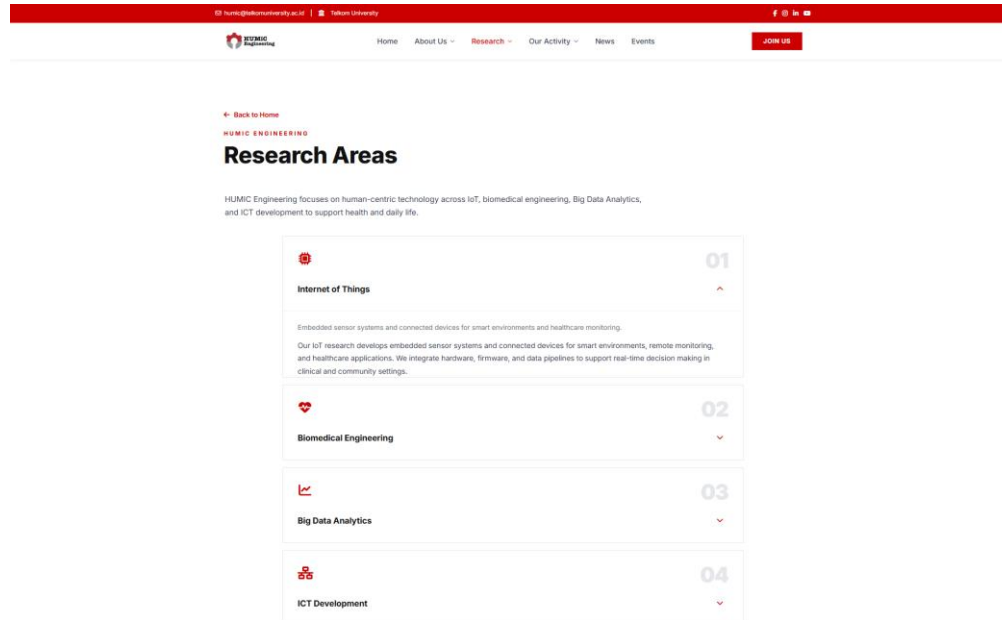

Daftar peneliti HUMIC.

④ Foto & Posisi

Setiap anggota menampilkan foto dan jabatan.

Halaman Research Areas

URL: /research/ — Menu: Research → Research Areas

① Intro

Teks pembuka halaman research.

② Kartu Research

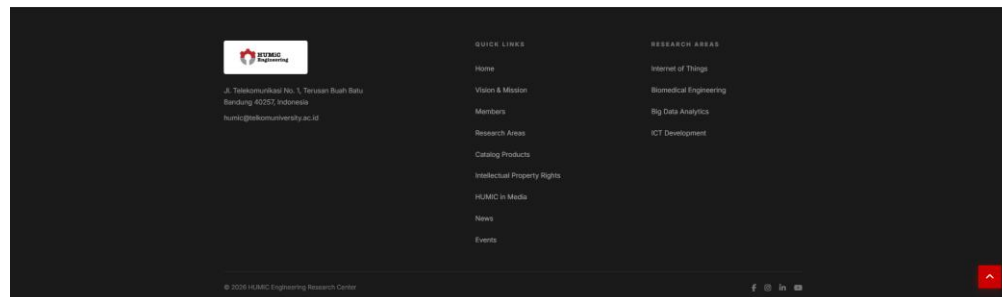

Daftar area riset dengan ikon dan ringkasan.

③ Accordion

Klik tiap area untuk detail penjelasan lengkap.

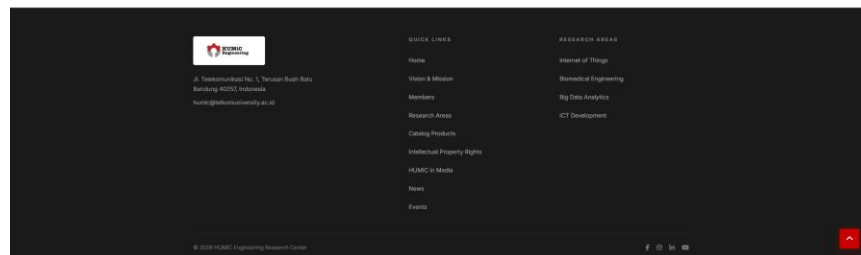

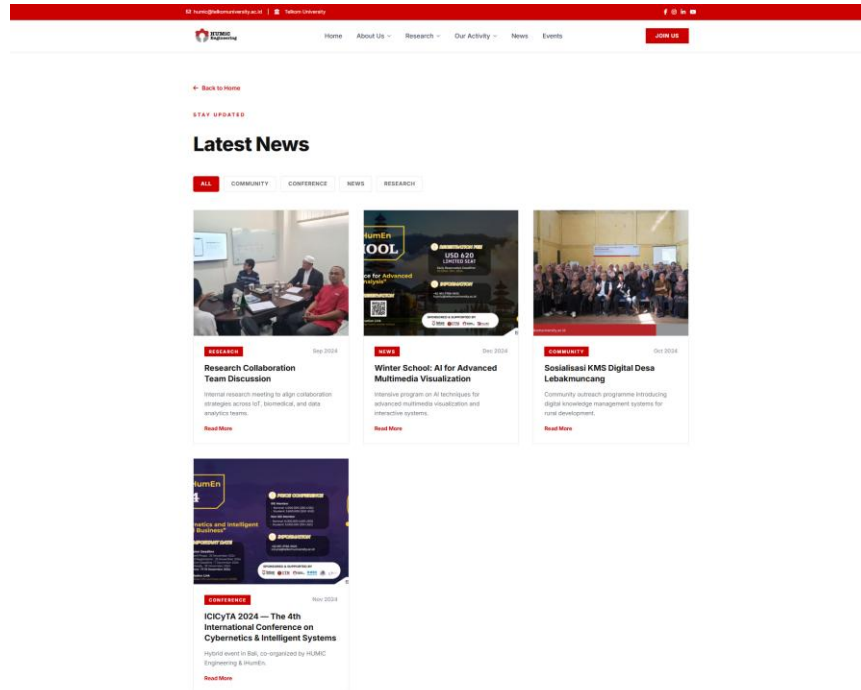

④ Dari Homepage

Kartu research di homepage mengarah ke sini.

Halaman News

URL: /news/ — Menu: News

① Arsip Berita

Seluruh artikel dan pengumuman HUMIC.

② Kartu Berita

Thumbnail, kategori, tanggal, dan judul.

③ Read More

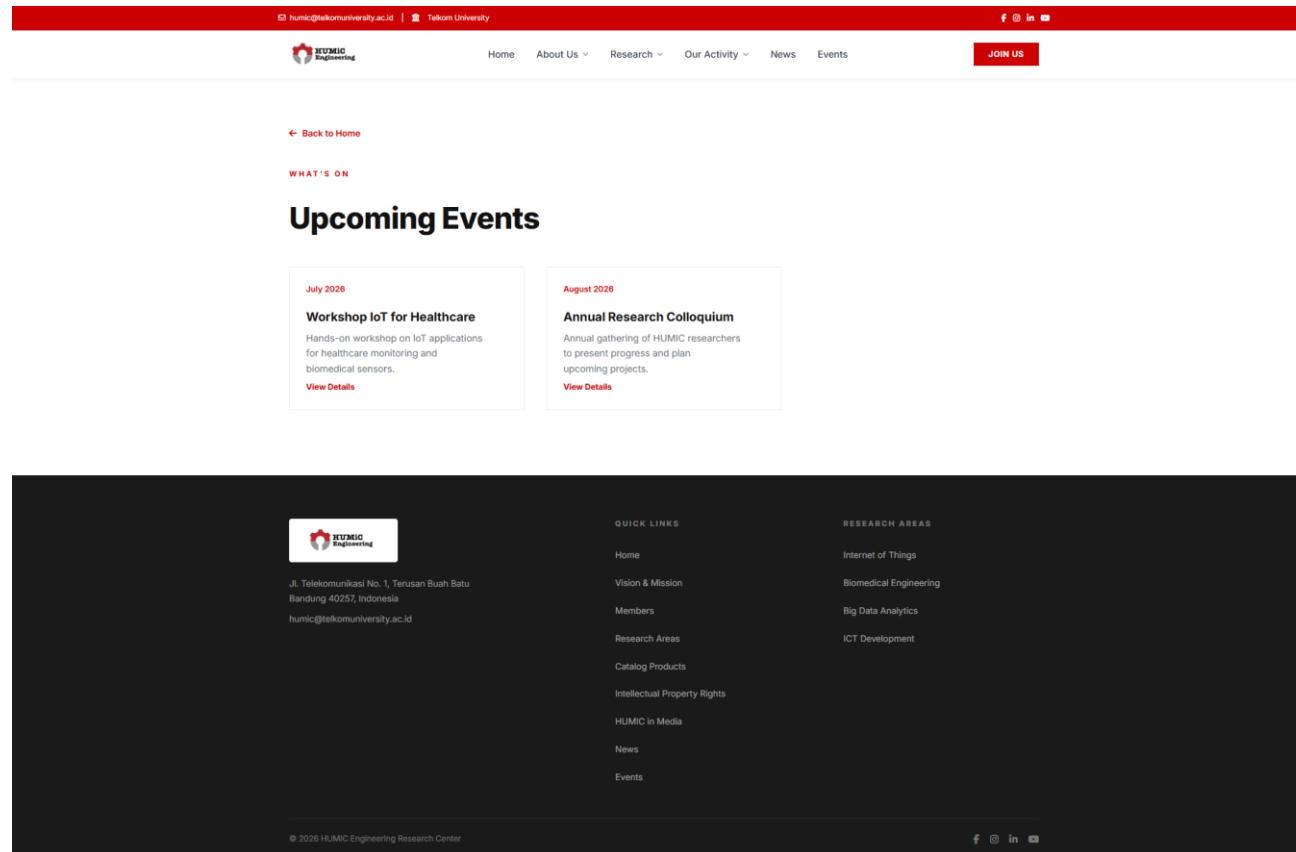

Buka artikel lengkap atau link eksternal.

④ Homepage

Tiga berita terbaru tampil di section Latest News.

Halaman Events

URL: /events/ — Menu: Events

① Arsip Event

Daftar kegiatan dan event HUMIC.

② Upcoming

Event mendatang tampil di homepage.

③ Tanggal Event

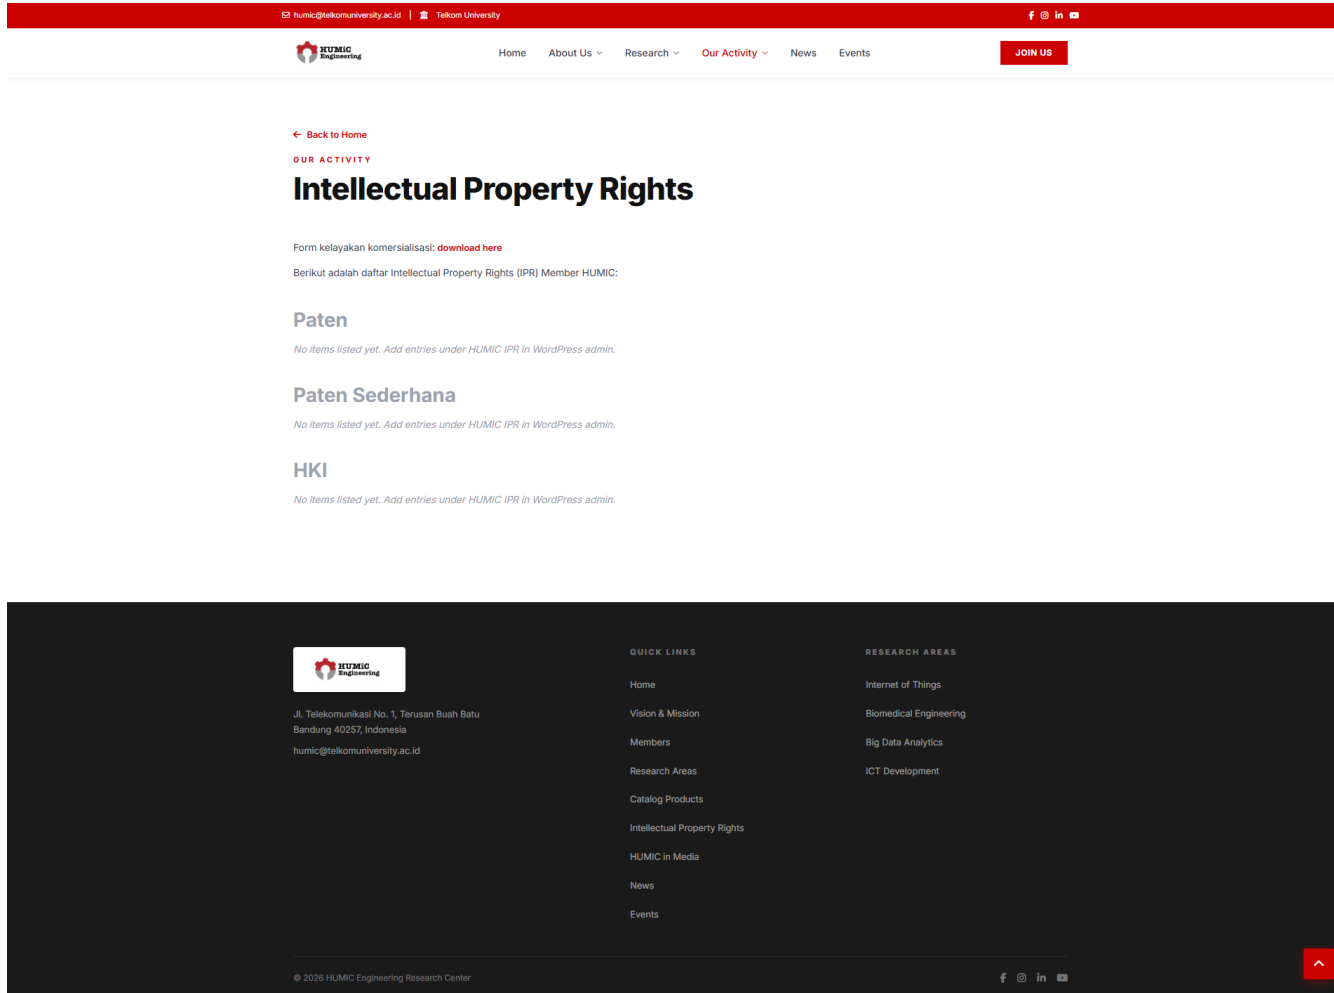

Ditampilkan pada setiap kartu event.

④ Detail Event

Klik untuk membaca informasi lengkap.

Halaman Intellectual Property Rights (IPR)

URL: /ipr/ — Menu: Our Activity → Intellectual Property Rights

① Daftar IPR

Kekayaan intelektual yang dimiliki HUMIC.

② Kategori

Paten, Paten Sederhana, atau HKI.

③ Detail Item

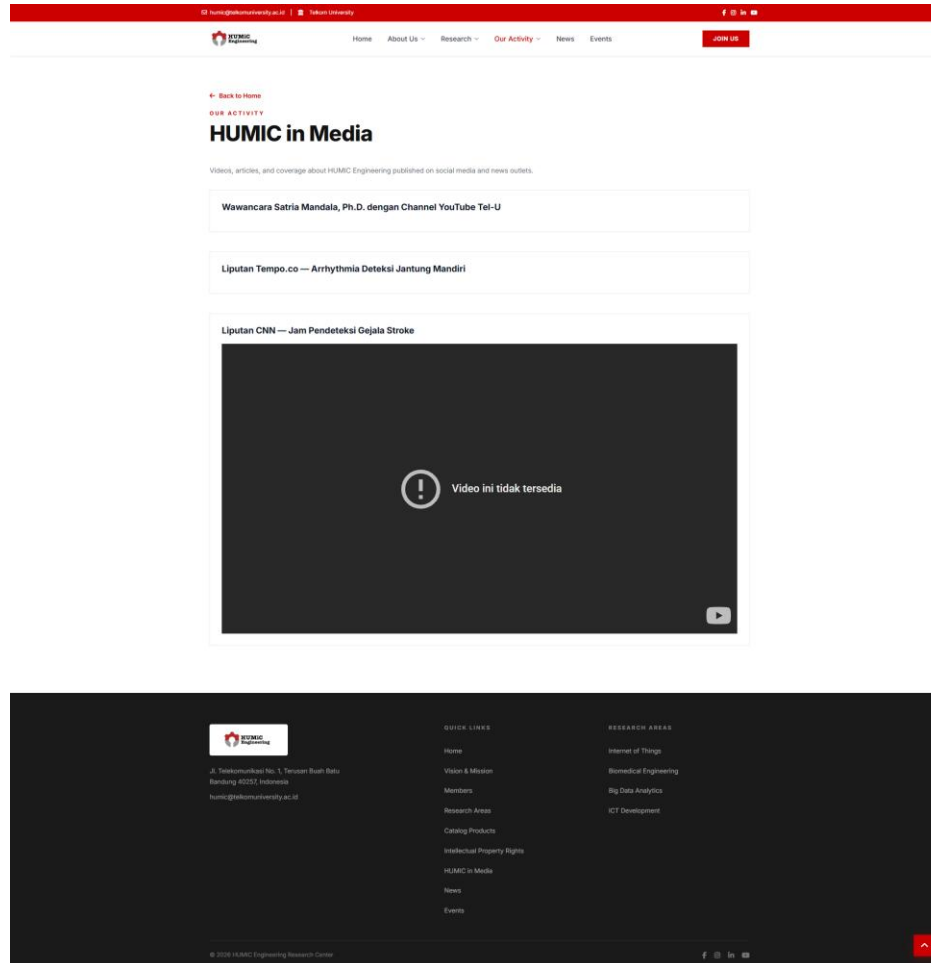

Judul dan deskripsi setiap kekayaan intelektual.

④ Our Activity

Bagian dari menu aktivitas riset HUMIC.

Halaman HUMIC in Media

URL: /media/ — Menu: Our Activity → HUMIC in Media

① Galeri Media

Liputan dan video tentang HUMIC.

② YouTube Embed

Video diputar langsung di halaman.

③ Judul & Deskripsi

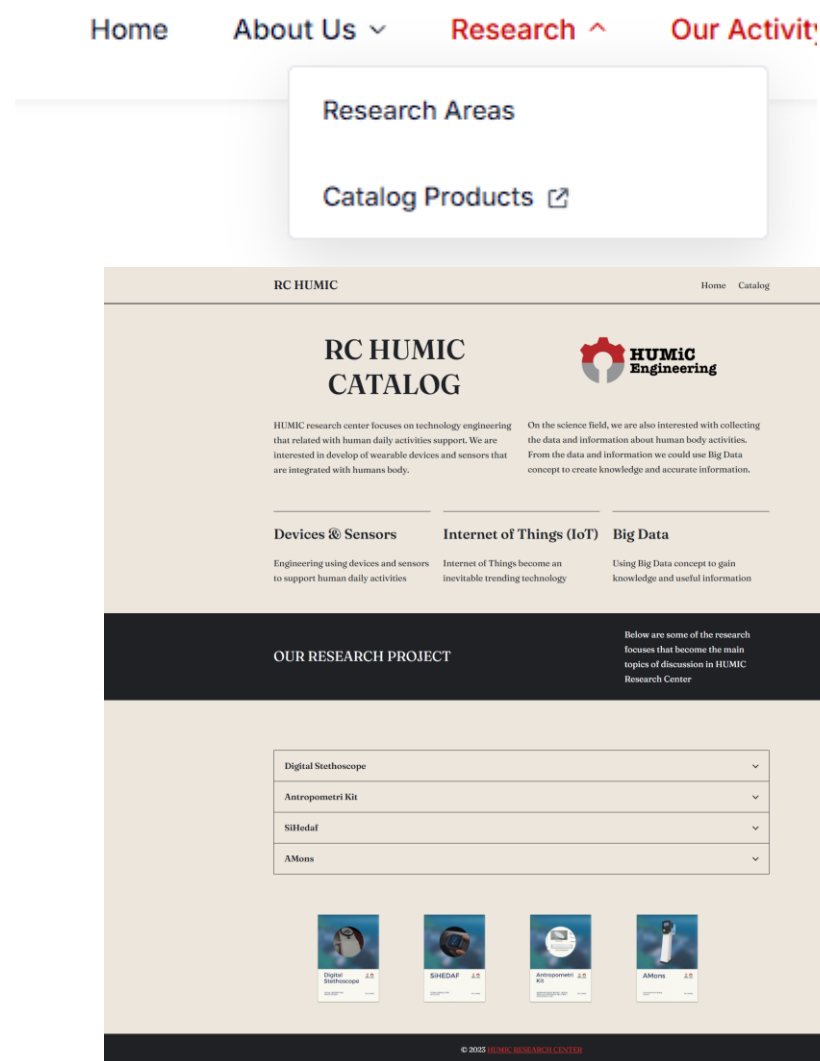

Informasi singkat setiap media.

④ Our Activity

Dokumentasi kegiatan HUMIC di media luar.

Catalog Products (Eksternal)

Menu: Research → Catalog Products — dibuka di tab baru

① Katalog Produk

Kumpulan produk hasil riset HUMIC.

② Link Eksternal

Mengarah ke website katalog terpisah.

③ Tab Baru

Browser membuka halaman katalog di tab baru.

④ Dari Menu Research

Akses melalui dropdown menu Research.

Section Contact & Footer

Bagian bawah homepage dan setiap halaman.

LAYANAN KELUHAN

Form Layanan Keluhan RC HUMIC:
https://bit.ly/Layanan_Keluhan_RCHUMIC

Form Layanan Keluhan Pusat
Penelitian Human Centric (HUMIC)
Engineering Universitas Telkom

① Office Location

Alamat kantor dan tombol Google Maps.

② Keluhan / QR

Form keluhan dan kode QR.

③ Footer

Alamat, email, Quick Links, Research Areas.

④ Join Us

Tombol header juga mengarah ke section Contact.

⑤ Social Media

Link sosial di topbar dan footer.

Ringkasan Halaman Website

Peta cepat untuk pengunjung — halaman apa saja yang tersedia.

17 / 37	Isi & fungsi bagi pengunjung
Homepage /	Profil HUMIC, berita & event terbaru, partner, kontak
/vision-mission/	Visi, misi, dan timeline organisasi
/members/	Profil anggota tim HUMIC
/research/	Area riset lengkap dengan detail accordion
/news/	Arsip seluruh berita HUMIC
/events/	Arsip kegiatan dan event
/ipr/	Daftar kekayaan intelektual (paten, HKI)
/media/	Video dan liputan HUMIC di media
Catalog Products	Katalog produk riset — link eksternal
#contact (homepage)	Alamat kantor, maps, dan form keluhan

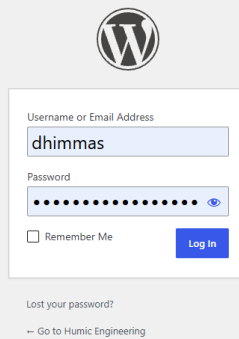

BAGIAN B

Panduan Admin WordPress

Untuk operator yang mengelola konten melalui dashboard wp-admin

Login Admin

Akses dashboard untuk mulai mengelola konten website.

Username or Email Address
dhimmas

Password
••••••••••

☐ Remember Me

[Lost your password?](#)
[Go to Humic Engineering](#)

① URL Login

Buka /wp-admin pada browser.

② Username

Masukkan akun admin yang diberikan.

③ Password

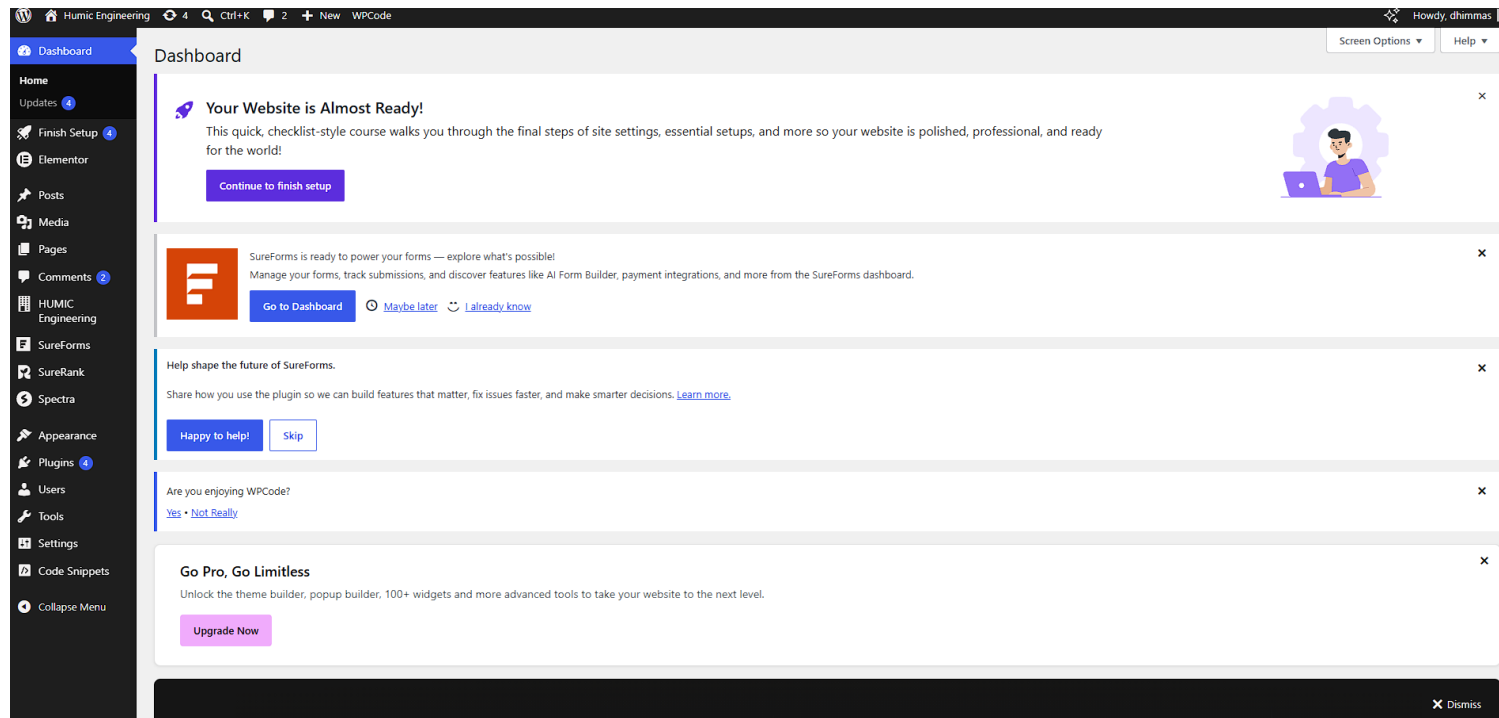

Masukkan kata sandi akun.

④ Log In

Klik untuk masuk ke dashboard.

Dashboard Admin

Area kerja admin setelah login ke WordPress.

① Sidebar Kiri

Navigasi menu admin dan plugin.

② HUMIC Engineering

Menu utama pengelolaan website HUMIC.

③ Pages

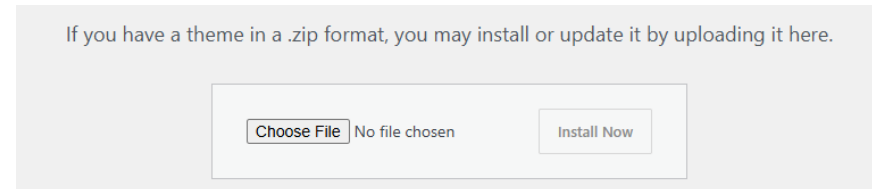

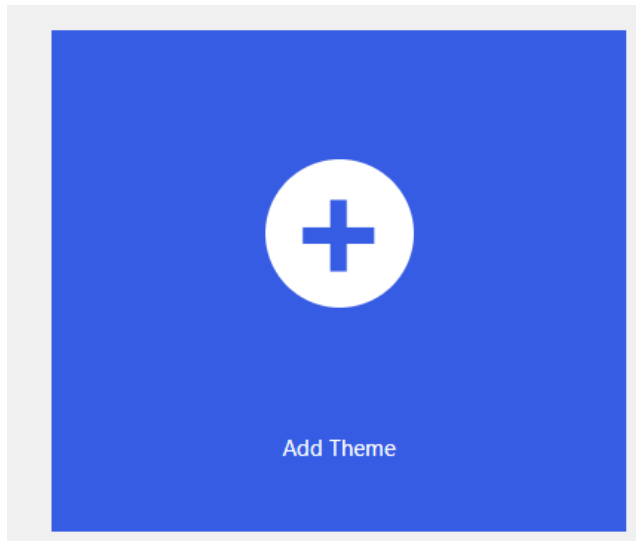

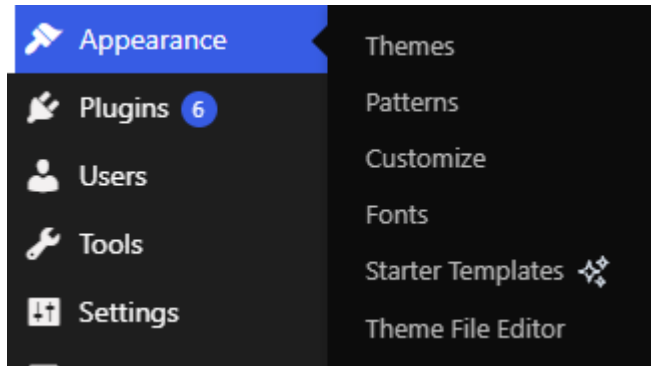

Kelola halaman homepage dan halaman statis.

④ Area Konten

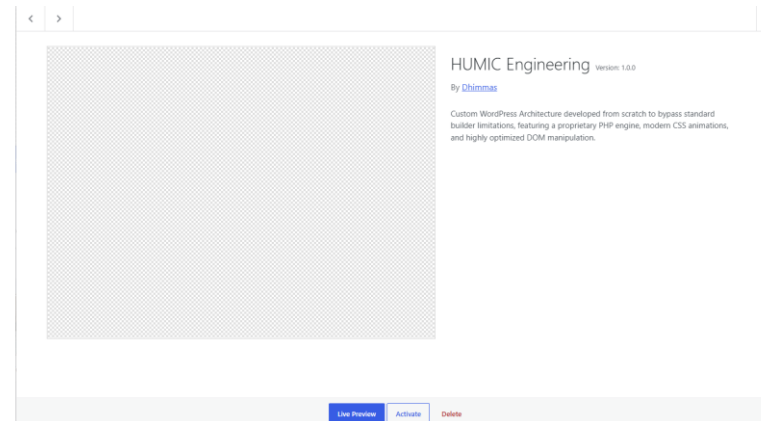

Tampilan utama saat mengedit data.

Mengupload Tema

Memasukkan Tema Humic Engineering melalui Theme

Name	Date modified	Type	Size
▼ Today			
 humic-theme	07/07/2026 21:01	Compressed (zipp...	66 KB

① Appearance

Buka Appearance → Klik Themes → Add Themes

② Upload Themes

Pilih File .zip yang akan di upload (humic-theme.zip)

③ Aktivasi Theme

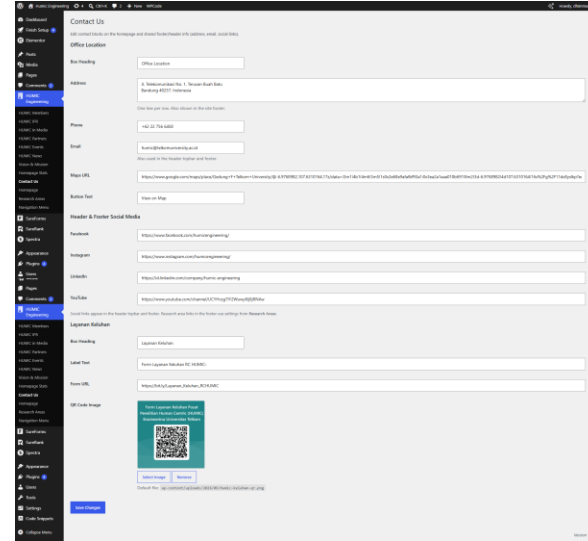

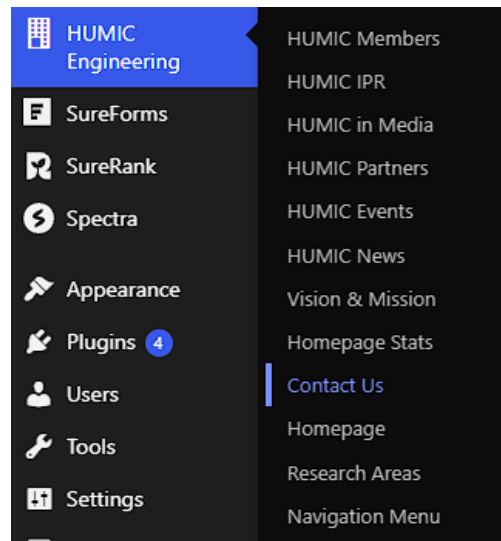

Setelah itu, aktifkan tema yang sudah di upload tadi.

④ Selesai

Tema dan tampilan environment humic sudah terinstall.

Mengubah Header & Footer

Contact Us · Navigation Menu

① Contact Us

Alamat, telepon, email, maps — HUMIC → Contact Us.

② Social Media

Facebook, Instagram, LinkedIn, YouTube.

③ Navigation Menu

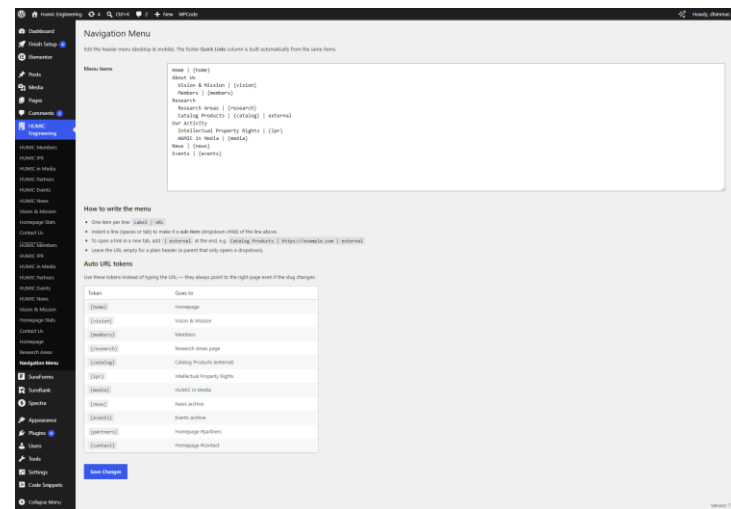

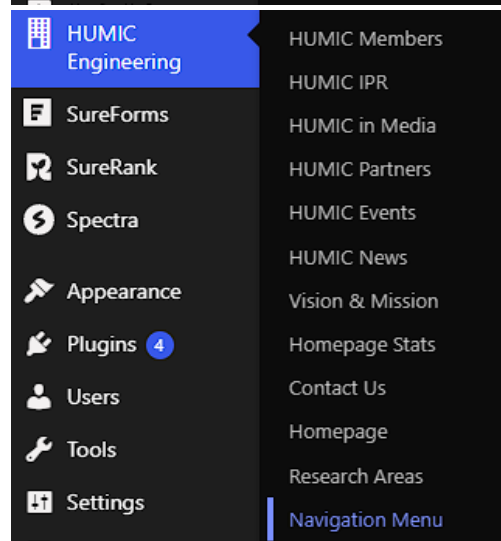

Atur menu header desktop, mobile, dan footer.

④ Format Menu

Label | URL — gunakan token {home}, {news}, dll.

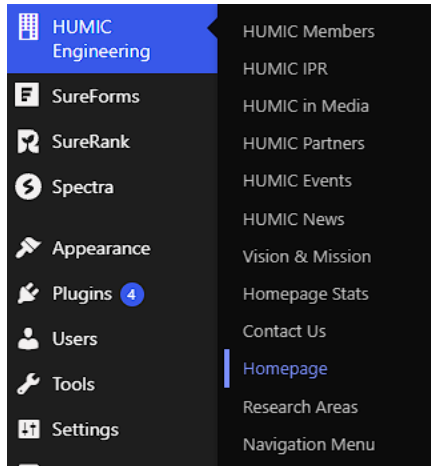

⑤ Save Changes

Simpan setelah mengubah kontak atau menu.

Mengubah Homepage

HUMIC Engineering → Homepage

Homepage

Edit hero and about sections ([basic_hero], [basic_about])

Hero Section

Label: Research Center

Title: Human Centric

Highlighted Word: Engineering

Shown in red after the title.

Description: Advancing science through human-centered innovation in IoT, Big Data, Biomedical, and ICT research at Telkom University, Bandung.

Primary Button: Vision & Mission

URL (empty = Vision & Mission page)

Secondary Button: Join Us

#contact

Background Image: Select Image Remove

Default file: [ipg-content/uploads/2020/06/image-5.png](#)

About Section

Eyebrow: Who We Are

Section Title: About HUMIC

Badge Year: 2016

Badge Label: Established

About Photo: Select Image

Default file: [ipg-content/uploads/2020/06/image-4.png](#)

Logo (bottom bar): Select Image

Default file: [ipg-content/uploads/2020/06/image-22.png](#)

Our Vision: To become an excellent research center in the field of engineering to improve the human health and prosperity.

Our Mission Summary: HUMIC Engineering pursues excellence across embedded IoT sensor systems for biomedical applications, remote health monitoring, Big Data Analytics, and ICT development for human health.

Full vision and mission items (timeline, etc) can also be edited under Vision & Mission.

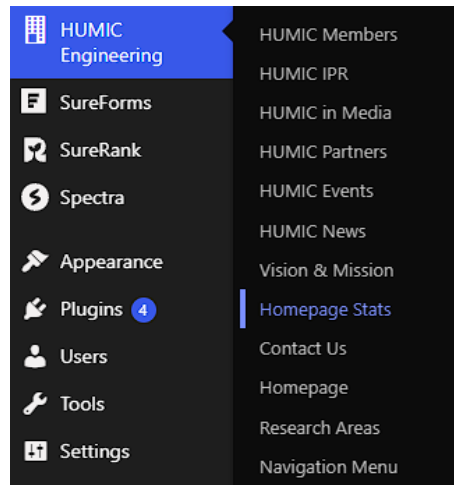

Save Changes

version 7.0

- ① **Hero Section**
Label, judul, highlight, deskripsi, tombol, background.
- ② **About Section**
Eyebrow, judul, badge, foto, logo.
- ③ **Vision & Mission**
Teks visi dan ringkasan misi singkat.
- ④ **Background Image**
Upload gambar latar hero via Media Library.
- ⑤ **Save Changes**
Simpan perubahan hero dan about.

Mengubah Statistik Homepage

HUMIC Engineering → Homepage Stats

Homepage Stats

Edit the red statistics bar on the homepage (`[[humic_stats_bar]]`).

Value	Label
100+	Research Papers
30+	Research Projects
10+	Patented Products

Three statistics are shown in a row on the homepage. Include a number in each value (e.g. `100+`) for the count-up animation.

[Save Changes](#)

① Value

Angka statistik, contoh: 100+.

② Label

Keterangan, contoh: Research Papers.

③ Baris Statistik

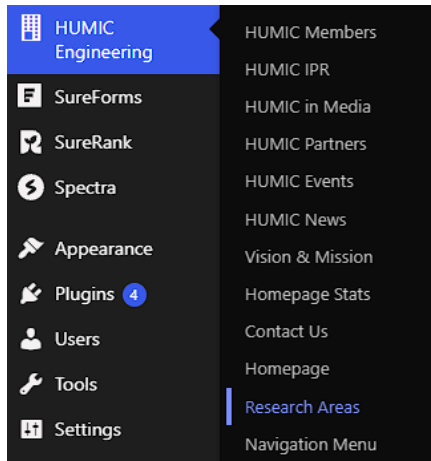

Tiga baris angka pada homepage.

④ Save Changes

Simpan agar tampil di stats bar.

Mengubah Research Areas

HUMIC Engineering → Research Areas

Research Areas

Edit homepage research cards (`{{humic_research_areas}}`) and the full research page at `/research/`.

View All Research URL:

Internal research overview page, Default:

Research Page Intro:

Shown at the top of the `/research/` page.

Catalog Products URL:

External product catalog for the Catalog Products menu in the header (`{{humic_catalog_url}}`).

Research Cards

#	Icon class	Slug / ID	Title	Summary	Detail (Learn More)
01	fa-solid fa-microchip	research-iot	Internet of Things	E m be d	
02	fa-solid fa-heart-pulse	research-biomed	Biomedical Engineering	H e a l t h	
03	fa-solid fa-chart-line	research-bigdata	Big Data Analytics	L a r g e	
04	fa-solid fa-network-wired	research-ict	ICT Development	I n f o r m a t i o n	

Icon uses Font Awesome classes. Summary is always visible. Detail expands on the page when visitors click Learn More.

[Save Changes](#)

① Research Page Intro

Teks pembuka halaman `/research/`.

② Catalog Products URL

Link menu katalog eksternal.

③ Research Cards

Judul, ikon, ringkasan, dan detail accordion

④ Slug / ID

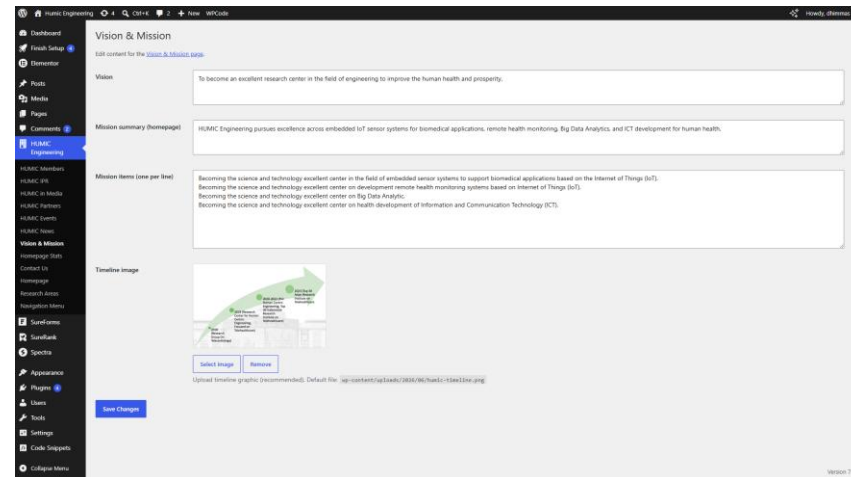

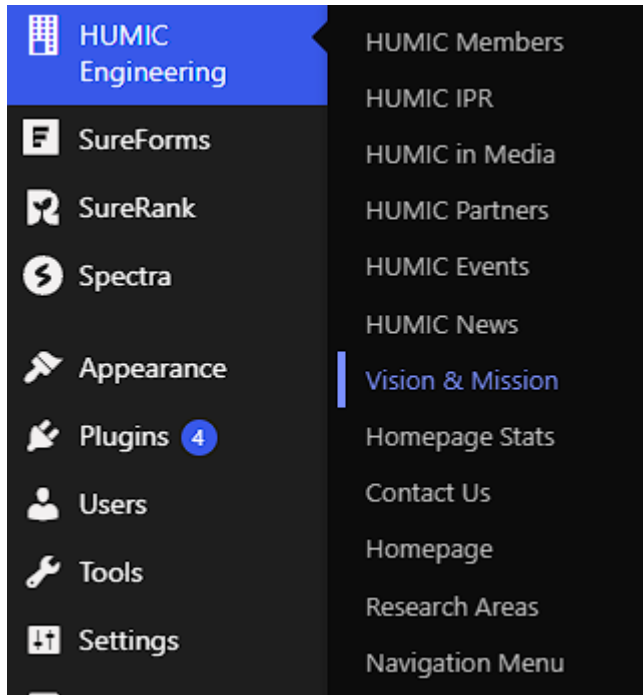

Anchor untuk halaman research detail.

⑤ Save Changes

Simpan kartu dan pengaturan research

Mengubah Vision & Mission

HUMIC Engineering → Vision & Mission

① Vision

Teks visi organisasi.

② Mission Summary

Ringkasan misi di homepage.

③ Mission Items

Daftar misi — satu item per baris.

④ Timeline Image

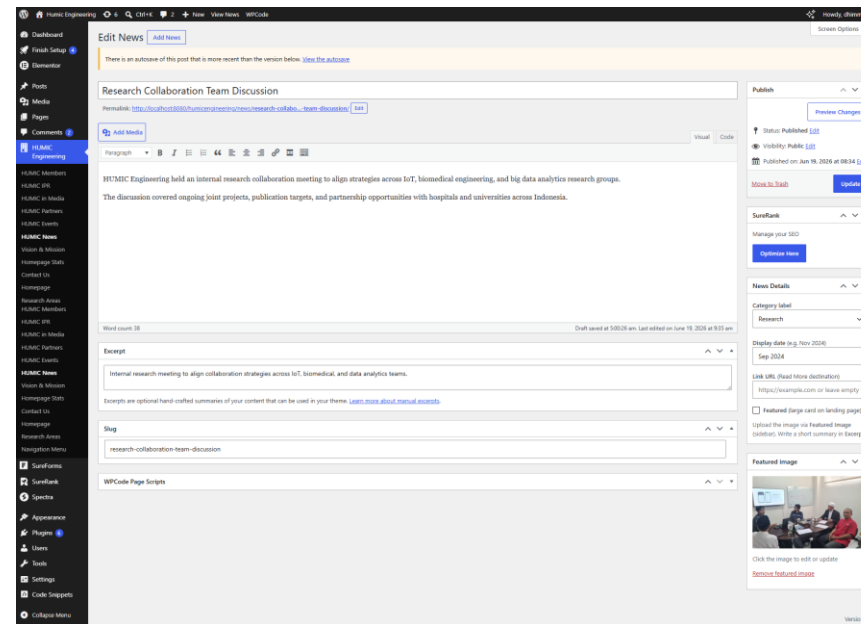

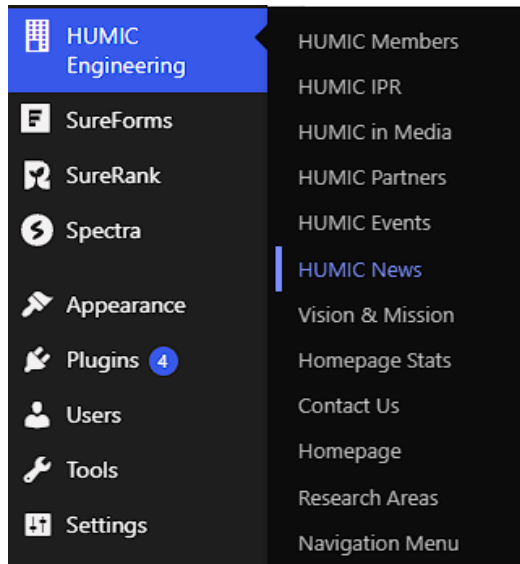

Gambar timeline halaman Vision.

⑤ Save Changes

Simpan konten vision & mission.

Mengelola News

HUMIC Engineering → HUMIC News

① Add News

Tombol tambah berita baru.

② Title & Content

Judul dan isi artikel berita.

③ Featured Image

Gambar thumbnail kartu berita.

④ Category & Date

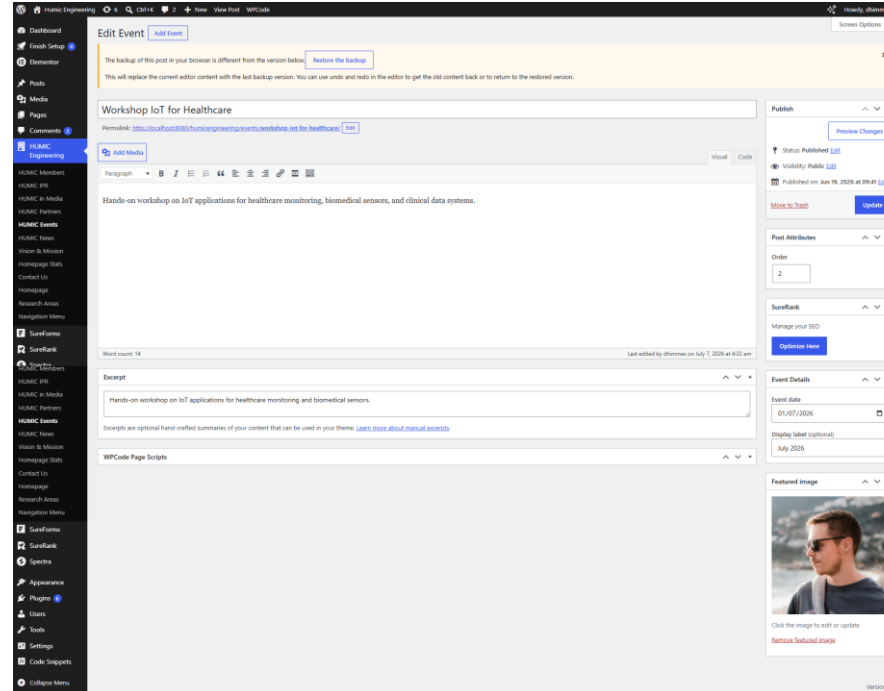

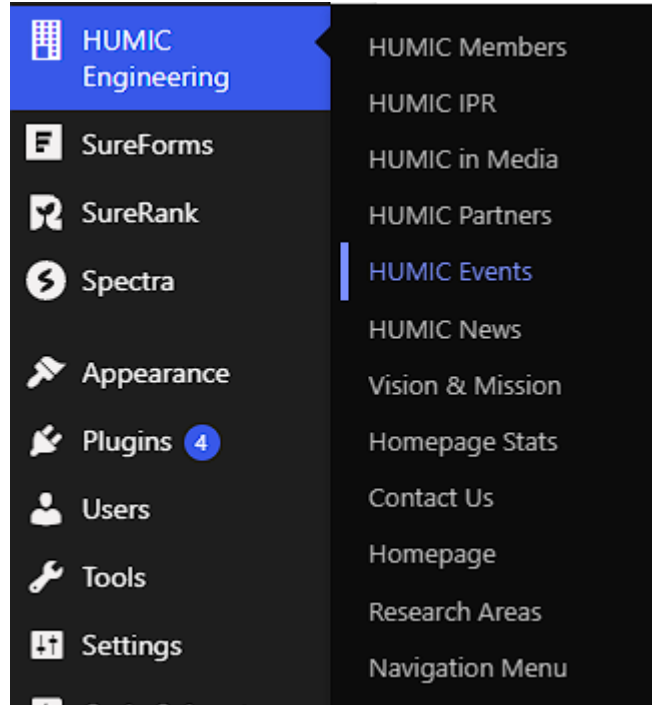

Label kategori dan tanggal tampilan.

⑤ Publish

Terbitkan agar muncul di homepage dan arsip.

Mengelola Events

HUMIC Engineering → HUMIC Events

① Add Event

Tombol tambah event baru.

② Title & Excerpt

Nama event dan ringkasan singkat.

③ Event Date

Tanggal untuk sorting — wajib diisi.

④ Display Label & Image

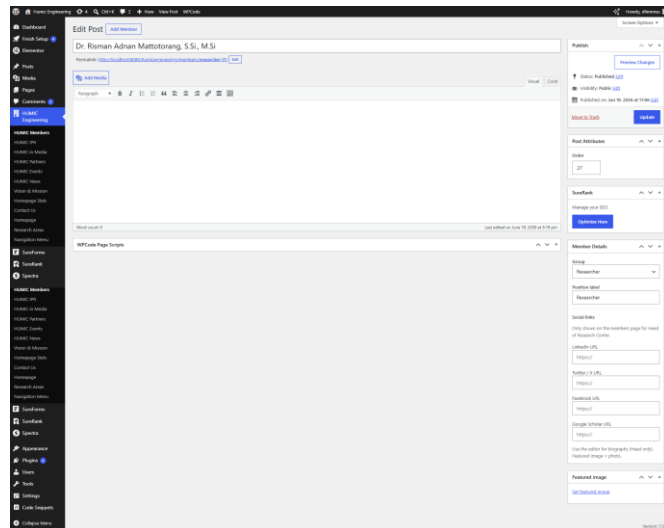

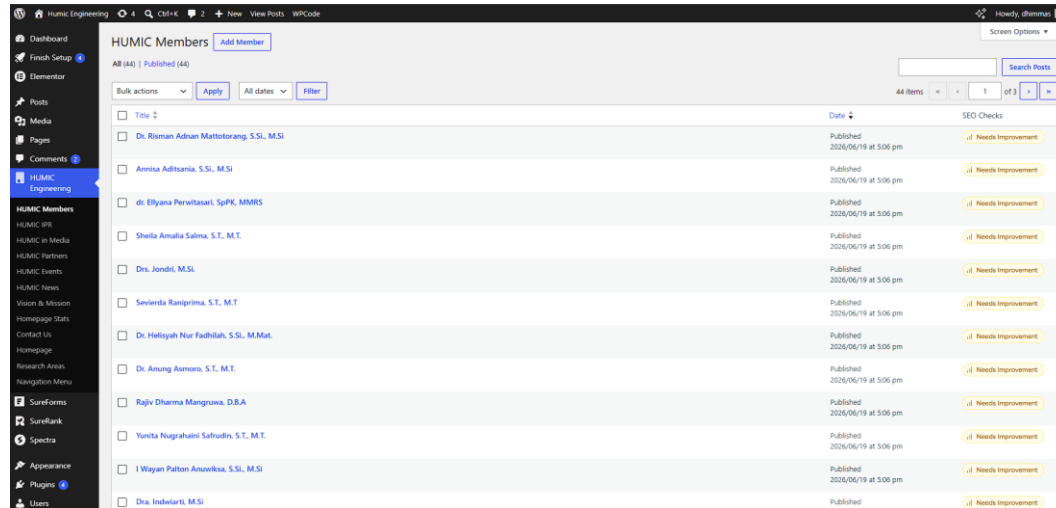

Teks tanggal tampilan & Gambar — opsional.

⑤ Publish

Event mendatang tampil di homepage.

Mengelola Members

HUMIC Engineering → HUMIC Members

① Add New

Tambah profil anggota baru.

② Featured Image

Foto profil anggota.

③ Group

Head / Officer / Researcher.

④ Position Label

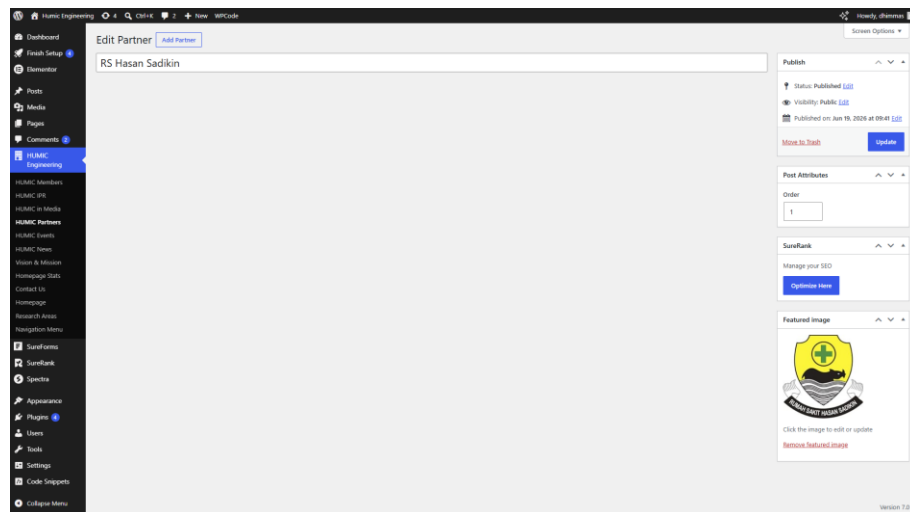

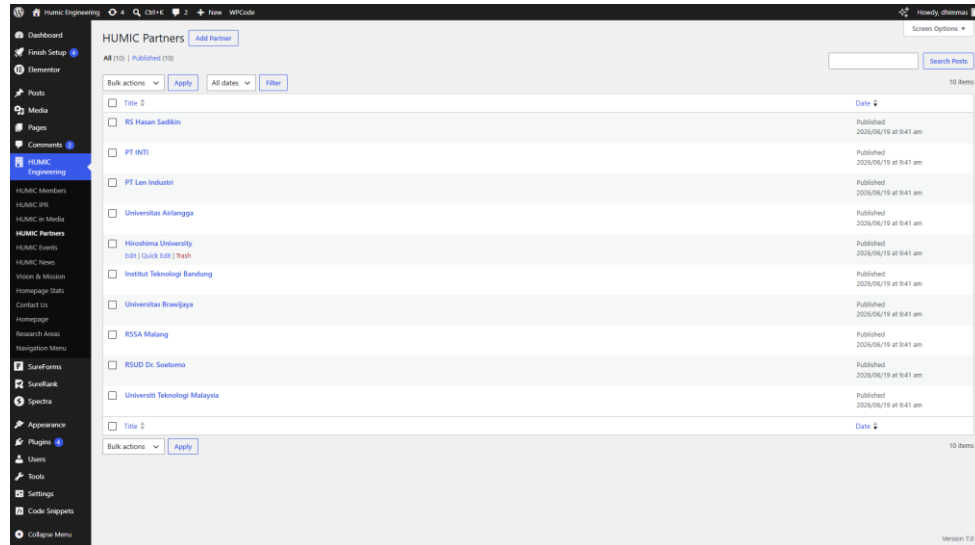

Jabatan atau posisi anggota.

⑤ Publish

Tampil di halaman /members/.

Mengelola Partners

HUMIC Engineering → HUMIC Partners

① Add Partner

Tambah mitra kolaborasi baru.

② Title

Nama partner untuk referensi admin.

③ Featured Image

Logo partner — tampil di homepage.

④ Order

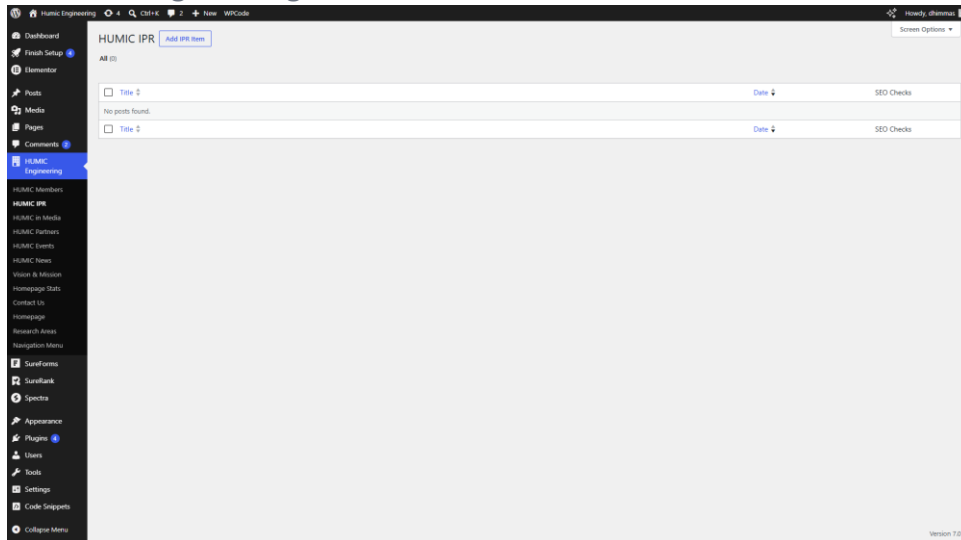

Atur urutan tampilan logo.

⑤ Publish

Logo muncul di section Partners.

Mengelola Intellectual Property Rights (IPR)

HUMIC Engineering → HUMIC IPR

① Add New

Tambah data kekayaan intelektual

② Title

Nama Item IPR.

③ Content

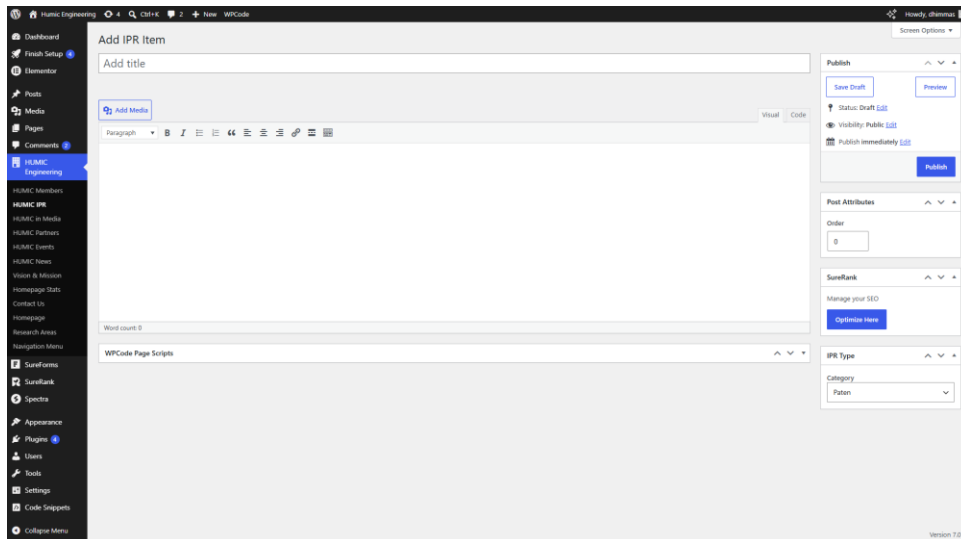

Detail dan deskripsi IPR.

④ Category

Paten / Paten Sederhana / HKI

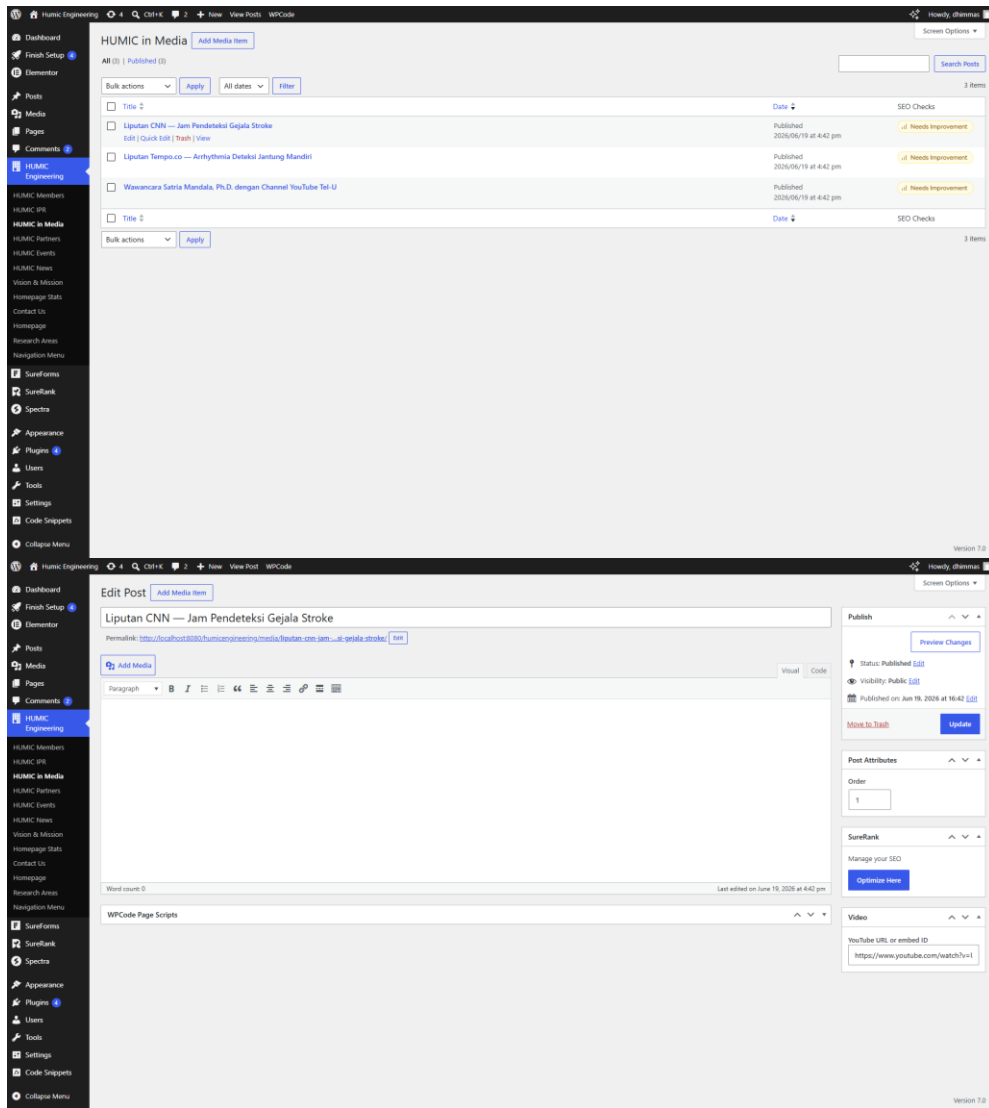

⑤ Publish

Data tampil di halaman IPR.

Mengelola HUMIC in Media

HUMIC Engineering → HUMIC in Media

① Add New

Tambah entri media baru.

② Title

Judul liputan atau media.

③ Content

Deskripsi singkat media.

④ YouTube URL

Link atau ID video YouTube.

⑤ Publish

Video tampil di halaman Media.

Setelah Melakukan Perubahan

Langkah jika perubahan belum terlihat di website.

Ctrl + F5

① Hard Refresh

Tekan Ctrl+F5 pada browser.

② Cache Plugin

Purge cache LiteSpeed, WP Rocket, dll.

③ Elementor Tools

Regenerate CSS & Data jika pakai Elementor.

④ Cek Status

Pastikan konten berstatus Published.

⑤ Deploy Asset

Jika ubah CSS/JS — lihat DEPLOY.md.

Ringkasan Menu Admin

Referensi cepat seluruh menu pengelolaan konten.

35 / 37	Fungsi
Homepage	Edit hero dan about section
Homepage Stats	Edit angka statistik homepage
Navigation Menu	Edit menu header dan footer Quick Links
Contact Us	Edit kontak, alamat, email, maps, sosial media
Research Areas	Edit kartu research dan URL katalog
Vision & Mission	Edit visi, misi, dan timeline
HUMIC News	Kelola berita
HUMIC Events	Kelola event
HUMIC Members	Kelola anggota
HUMIC Partners	Kelola partner
HUMIC IPR	Kelola data IPR
HUMIC in Media	Kelola video/media

Intellectual Property & Authorship

1. Sebagian besar pengembangan sistem berbasis WordPress memiliki kelemahan pada tingginya ketergantungan terhadap Page Builder pihak ketiga dan Database untuk penciptaan halaman statis. Sebagai kebaruan (novelty), sistem HUMIC Engineering mengatasi masalah ini dengan membangun sebuah mesin antarmuka (Proprietary PHP Engine) yang mampu melakukan injeksi Virtual Routing secara native ke dalam inti WordPress (Core WP Rewrite Rules). Pendekatan arsitektur tingkat lanjut ini mengizinkan sistem untuk merender antarmuka halaman kompleks secara dinamis langsung dari kode sumber (Source Code), sehingga mengeliminasi kueri database yang tidak perlu (Database Overhead), meningkatkan keamanan dari kerentanan injeksi, serta menjamin performa waktu muat (Load Time) yang jauh lebih optimal dibandingkan metode perakitan konvensional

2. Sebagai standar arsitektur tingkat lanjut, sistem ini melepaskan diri dari ketergantungan pada ekstensi pihak ketiga pengelola basis data (seperti Advanced Custom Fields atau pembuat formulir instan). Sistem mendefinisikan Custom Data Model dan merakit skema antarmuka basis data (Meta Box Engine) murni dari kode sumber PHP (Native Code). Melalui rekayasa perangkat lunak ini, sistem secara spesifik mengamankan input melalui verifikasi kriptografis (Nonce Validation) dan hanya memuat skema formulir yang tepat di ruang memori saat dibutuhkan. Hal ini menghasilkan efisiensi memori yang absolut, keamanan data tingkat tinggi, serta skalabilitas struktur data yang independen dari pembaruan pihak ketiga.

```
// Proprietary PHP Engine: Native Virtual Routing Injection
add_rewrite_rule('^vision-mission/?$', 'index.php?humic_virtual_page=vision-mission', 'top');
add_rewrite_rule('^ipr/?$', 'index.php?humic_virtual_page=ipr', 'top');
add_rewrite_rule('^research/?$', 'index.php?humic_virtual_page=research', 'top');

add_filter('query_vars', 'humic_pages_query_vars');
function humic_pages_query_vars($vars) {
    $vars[] = 'humic_virtual_page'; // Mendaftarkan parameter virtual kustom
    return $vars;
}
```

```
// Proprietary PHP Engine: Native Custom Data Model & Meta Box
add_action('add_meta_boxes', 'humic_member_meta_boxes');
function humic_member_meta_boxes() {
    add_meta_box('humic_member_details', 'Member Details', 'humic_member_meta_render', HUMIC_MEMBER_CPT, 'side');
}

function humic_member_meta_render($post) {
    // Keamanan Kriptografis (Nonce) & Pemrosesan Native
    wp_nonce_field('humic_member_save', 'humic_member_nonce');
    $role = get_post_meta($post->ID, '_humic_member_role', true);
    $position = get_post_meta($post->ID, '_humic_member_position', true);
    // ... [Native HTML UI Render] ...
}
```
